PROFESSIONAL SUMMARY

ICT Professional with a Diploma in ICT and hands-on experience in Helpdesk Support, System Maintenance, and Full-Stack Development. Expert at diagnosing hardware/software malfunctions, configuring networks, and supporting 70+ users in educational and retail environments. Developed a custom ICT Helpdesk Ticketing System to streamline incident reporting and improve technical support efficiency.

CORE TECHNICAL SKILLS

- Support: Helpdesk Troubleshooting , Technical Documentation , User Training.
- Hardware: PC Repair & Maintenance , Printer Configuration , Peripheral Setup.
- Software: OS Installation (Windows 10/11) , MS Office Suite , POS Systems.
- Networking: LAN/Wi-Fi Troubleshooting , Shared Device Configuration.
- Development: PHP, MySQL (phpMyAdmin), HTML5, CSS3, JavaScript.

TECHNICAL PROJECT

ICT Helpdesk Ticketing System

- Objective: Developed a centralized web-based portal to replace manual email-based support with a structured ticketing workflow.
- Workflow Engine: Engineered a database-driven dashboard to manage the complete ticket lifecycle: Open, Pending, Pending Confirmation, and Resolved.
- Security: Implemented Role-Based Access Control (RBAC) to distinguish between end-user submissions and administrative management.
- Features: Integrated a file-attachment module for users to upload screenshots of error messages, significantly reducing diagnostic time.
- Technologies: PHP, MySQL, Bootstrap 5, DataTables.

PROFESSIONAL EXPERIENCE

Sales & IT Support Assistant | Text Book Centre, Nairobi ***December 2025 – February 2026***

- System Reliability: Supported Point-of-Sale (POS) systems by identifying and resolving hardware and connectivity issues to maintain continuous sales operations.
- User Assistance: Provided technical guidance to 50-80 customers daily regarding learning materials and technology products.

ICT Support Intern | AmericaShare ***September 2024 – March 2025***

- Fleet Maintenance: Supported 30+ desktop computers across multiple departments, ensuring high system availability.
- Infrastructure Setup: Installed and configured Windows operating systems and essential productivity software for staff.
- Peripheral Support: Configured network printers and shared devices used by multiple staff members.
- Incident Response: Responded to internal IT support requests, providing first-line technical assistance to minimize downtime.

ICT Support Intern | Star of Hope Secondary School ***August 2023 – April 2024***

- Lab Management: Managed computer lab resources for 40+ students and administrative staff.
- Hardware Maintenance: Repaired keyboards, system units, and peripherals to ensure consistent resource availability.
